

**APPENDIX D**  
**Rapid City Area Metropolitan Planning Organization**  
**Public Participation Project Plan Worksheet**

**Prior to developing any transportation product, Metropolitan Planning Organization staff should consider the following information when designing a specific public participation plan.**

1. Determine the specific goals and objectives that public involvement is to accomplish.

[See Goals Section of Public Participation Plan](#)

---

---

2. Identify the public that either might be interested in participating or whose involvement is necessary in order to achieve the objectives.

[See Appendix A of Public Participation Plan](#)

---

---

3. Select a technique(s) for interacting with the public that will achieve the objectives.

[See Tools and Tactics section of Public Participation Plan](#)

---

---

4. Select suitable notification techniques for reaching the desired public with the desired information.

[See Notifications and Promotions section of Public Participation Plan](#)

---

---

5. Conduct the appropriate involvement technique(s).

[See Public Participation Plan](#)

---

---

6. Determine how the techniques are to be evaluated.

[See Evaluation of Public Involvement section of Public Participation Plan](#)

---

---

7. Incorporate the results of the involvement into the plan, document, special study, or project.

## Goals and Objectives of Public Involvement

This Public Involvement Plan for the Major Streets Plan has been developed in compliance with the Rapid City Area MPO's (RCAMPO) [Public Participation Plan](#) (PPP), adopted in 2016. Below are the purpose and goals from RCAMPO's PPP.

### *Purpose*

The fundamental goal of public participation is to assure that the decisions regarding a proposed plan or project are made only after the public is aware of and has had the opportunity to comment on the proposal. Transportation planning decision-makers must consider concerns of all the public and users who may be affected by a proposed project.

### *Goals*

1. **Educate and Present Information:** The RCAMPO will provide timely and adequate information to the public.
2. **Solicit Public Input:** The RCAMPO will actively seek out input and participation from a wide variety of individuals, groups and organizations affected by the transportation system to identify transportation related needs, desires, issues and concerns.
3. **Facilitate Information Flow Between the Public and Decision-Makers:** The RCAMPO will compile public issues, comments and concerns into complete and concise documents for presentation to the decision-makers.
4. **Consider Public Concerns in Decision-Making:** The RCAMPO consider public concerns presented to them by staff and those presented by individual persons at public meetings.

## Stakeholders and Public Involvement Groups

Stakeholders and public involvement groups are listed in Appendix A.

## Tools and Tactics

### *Website*

The consultant team will provide, maintain, and update a webpage dedicated to the study. The website will help dispense information to the public regarding the status of the study, public meeting announcements, presentations, meeting summaries, and project documents. The website will assist with data gathering by housing a comment form and any project surveys. The website will be active at least 10 days prior to the first public meeting and will stay active at least six months completion of the study to allow public access to the final report.

### *Public Meetings*

Two public meetings will take place in Rapid City as part of this plan. The first meeting will be focused on introductory information and data collection. The second meeting will be focused on providing preliminary recommendations and conclusions as well as a presentation of the draft plan. The public meetings will take place in a location that is physically accessible and located within reasonable distance of public transit routes. The comment period for each meeting will extend 7 days past the date of each meeting.

## Notifications and Promotions

For each public meeting, a public notice will be published in the Rapid City journal once at least seven days prior to the meeting date.

A social media graphic and post copy will be provided to the MPO, City, and SDDOT at least 14 days prior to the meeting date.

## Evaluation of Public Involvement

The public engagement techniques will be evaluated by the completion of the previously listed tools and tactics. Written comments will be included as an appendix in the final report.
